

GODHA GROUP — INTEGRATED ERP

Powered by KIT ERP

Master Data → Construction Projects → Procurement Approvals → Finance & Costing → Customer Payment Follow-ups → MIS

KEY CAPABILITIES Customer Payment Follow-ups · PR & PO Approvals · Finance · Costing · Project Construction Management

01 · GROUP MASTER DATA & CONTROLS

Company · BU · Project · Customer · Vendor · Item · Employee · Assets

KIT · Master Data + HR + System Config

02 · FIVE CRITICAL CONTROL TOWERS

PAYMENT FOLLOW-UPS	PR & PO APPROVALS	FINANCE MODULES	COSTING	PROJECT CONSTRUCTION
- Overdue AR reminders - Promise-to-pay tracking - Credit control alerts - Collection cadence	- PR raise → approve - RFQ / vendor quote - PO multi-level approve - Goods receipt link	- AP · AR · GL · GST - Bank · Cash · Assets - Budgets · Period close - Group P&L / BS	- Project cost plan - Cost / profit centers - Budget vs actual - WIP · variance	- Project · BOQ · WBS - Site execution - Material · labour - Milestone / RA billing
KIT · CRM Payment Follow-ups	KIT · Procurement Approvals	KIT · Finance Management	KIT · Controlling (CO)	KIT · Sales Projects + CO

03 · SUPPORTING PROCESS LANES

CRM & SALES	INVENTORY / STORES	RENTAL MANAGEMENT	DESIGN · REAL ESTATE	MIS & DASHBOARDS
- Leads · Opportunities - Quotations · Contracts - Invoices · RA bills	- Receipt · Issue · Transfer - Site stock · Consumption - Plants · Storage locations	- Assets · Availability - Hire bookings · Returns - Settlements · Reports	- Drawings · Approvals - Plot inventory · Booking - Design fee billing	- Project profitability - Cash & receivables - BU / Group performance
KIT · CRM + Sales	KIT · Inventory Management	KIT · Rental Management	KIT · Projects + Properties	KIT · My Kit + Finance Reports

Pages 2–3 detail the five control towers with step-by-step KIT ERP process flows.

DEEP DIVE — COLLECTIONS & PROCUREMENT CONTROL

Customer payment follow-ups and gated PR / PO approvals — the two cash & spend control towers.

01

Customer Payment Follow-ups

KIT MODULE · CRM Management → Payment Follow-ups + Finance AR

Process flow

- Invoice / RA bill posted to customer AR
- Ageing buckets trigger follow-up tasks
- Collector records promise-to-pay & next action
- Escalation to credit control if overdue
- Receipt clears open item in Finance AR

Business outcome

- Faster collections & lower DSO
- Clear owner for every overdue invoice
- Audit trail of customer commitments
- Credit hold when exposure is high
- Live cash-forecast from promises

02

PR & PO Approval Process

KIT MODULE · Procurement Management → Requisitions → Purchase Orders

Process flow

- Site / project raises Purchase Requisition (PR)
- Budget & cost-center check against project plan
- Multi-level PR approval (site → PM → commercial)
- RFQ / vendor quotation → convert to PO
- PO value-based approval → release → GRN

Business outcome

- No spend without approved PR
- Budget leakage blocked at source
- Delegated authority by amount
- Full PR→PO→GRN→AP audit chain
- Vendor invoice 3-way match ready

Approval chain (typical) PR Draft → PR Approve → RFQ → PO Draft → PO Approve (L1 / L2) → PO Release → Goods Receipt → AP Invoice

DEEP DIVE — FINANCE, COSTING & CONSTRUCTION

How KIT ERP Finance, Controlling, and Project Construction run Godha’s build–bill–profit loop.

03 FINANCE MODULES	04 COSTING	05 PROJECT CONSTRUCTION
KIT · Finance Management • Chart of Accounts & journals • AR (customer) & AP (vendor) • Bank, cash, GST / tax returns • Fixed assets & depreciation • Budgets, forecasts, period close • P&L, Balance Sheet, Cash Flow • Multi-GAAP / parallel ledgers KIT covers – Finance Advanced mode – AR open-item clearing – AP from vendor invoices – Approvals & audit log	KIT · Controlling Management • Project / job cost planning • Cost & profit centers • Budget vs actual by WBS • Material + labour booking • WIP & variance analysis • Overhead allocation • Period-end controlling close KIT covers – Internal / project orders – Activity confirmations – Cost allocations – Profitability views	KIT · Sales Projects + CO + Inventory • Project creation & milestones • BOQ / budget baseline • WBS-style cost plan • Site material issue & transfer • Labour / contractor tracking • Progress / RA billing • Retention, advances, collections KIT covers – Sales → Projects – Inventory site stock – Procurement for site PR/PO – Finance AR on RA bills

Construction money loop

Project Setup → Cost Plan → Approved PR/PO → Site Execution & Issues → Cost Booking (CO) → RA / Milestone Invoice → Payment Follow-up → Cash Application (AR) → Project Profitability MIS
